ADVANTAGE AUSTRIA

ADVANTAGE AUSTRIA con una rete di 110 uffici in più di 70 paesi offre alle imprese austriache e ai loro partners internazionali una valida offerta di servizi e di supporto commerciale. 730 collaboratori e 35 consulenti Vi affiancano nella ricerca di fornitore o di un partner commerciale dall'Austria. Ogni anno organizziamo più di 1.000 manifestazioni per la creazione di contatti professionali. Gli uffici di ADVANTAGE AUSTRIA offrono inoltre un supporto nel contatto con le aziende austriache, servizi di ricerca di importatori, distributori e agenti di commercio oltre a informazioni dettagliate sulla business location Austria e sull'ingresso nel mercato austriaco.

ADVANTAGE AUSTRIA is the official Austrian Foreign Trade Promotion Organisation and the largest provider of services in the area of foreign trade. ADVANTAGE AUSTRIA offices are the gateway to Austria for international companies looking for world-class suppliers. We act as a central contact partner playing a strategic role for companies wishing to move to Austria and, therefore, are looking for top-quality partners for their business dealings. Regardless of whether foreign businesses are looking for Austrian buyers, a suitable location for a company branch or import/export office or an overview of Austria's internationally respected products and services, all roads meet at ADVANTAGE AUSTRIA.
With a network of more than 100 offices in 70 countries ADVANTAGE AUSTRIA is uniquely positioned to consult and guide Austrian enterprises worldwide.

Stefan Hagen, Sales Manager

Amaco GmbH is your trusted partner for medical packaging printing and late-stage customization. Amaco provides advanced printing solutions for the medical industry, enabling flexible, efficient, and cost-effective customization of medical packaging. Our on-demand printing systems simplify production processes, reduce waste, and lower overall costs.

Our team supports you at every stage, from expert consultation and application testing to technical training and ongoing service. With a global network of sales and service units, we offer fast, localized support tailored to your market and language needs.

Amaco is a proud member of Coesia, a global group of innovation-driven industrial solution companies headquartered in Bologna, Italy.

We are looking for:

Our end customers are manufacturers of single-use medical devices. However, we also work with machinery manufacturers in the packaging industry worldwide.

Our AMACO printing systems are mainly integrated into thermoforming machines. For this reason, we are very keen to find partners in the packaging industry with whom we can successfully carry out projects for medical technology manufacturers.

We offer:

More than 40 years' experience in packaging printing
Global network of service hubs around the world
A wide range of printing solutions to fulfill the requirements of our customers
Vision inspection systems to ensure quality, accuracy, and efficiency in packaging
Software solutions for label creation and integration into customers ERP/SAP systems

Contact Person:
Martin Kornfeld, Vice President R&D

Costantia Teich Austria GmbH, part of the Constantia Flexibles Group, is a leading company in the European flexible packaging industry, supplying the food, confectionery, and pharmaceutical sectors. Within the Group, Constantia Teich is the largest production site and provides semi-finished materials to sister companies. With around 1,000 employees working in production, administration, and its own research and development center, Constantia Teich is the largest employer in the Pielach Valley region of Lower Austria.

We are looking for:
General information and understanding of the companies in the Italian Packaging Valley, including their strategic orientation, areas of expertise, and capabilities. Identification of contacts for potential cooperation opportunities / joint projects. One particular focus could be on mechanical recycling processes (PE/PP) with high purity requirements and the use of recycled materials in contact-sensitive packaging applications.

We offer:
30 years of experience in the flexible packaging industry, covering R&D, application engineering, and regulatory compliance, including food and pharmaceutical contact regulations as well as product sustainability.
Heading state-of-the art R&D facilities (laboratories and pilot plants) with extensive expertise in the development of packaging coatings, extrusion compounds, aluminum foils, and plastic films, as well as their application and performance optimization. Deep technical competence in organic analytical chemistry, particularly in migration and extraction testing at ultra-trace levels, supporting regulatory compliance, product safety, and advanced material development.
